From Korea with power

KOREAN tractor manufacturer, TYM, is releasing a new compact T265 tractor in time for Christmas.

TYM tractors are distributed Australia-wide by Inlon whose sales and marketing manager Gary Surman said buyers always got a lot of tractor for their dollars.

"But you certainly won't get a lot of noise with the T265. Its Tier 4 naturally aspirated three-cylinder water-cooled diesel engine is extremely quiet," he said.

"The sleek bonnet gives excellent visibility of the front loader bucket while the new lighting and instrumentation panel add modern style touches.

"The T265 has more than enough grunt to pull Santa's sleigh and a super-quiet 1175cc engine for midnight gift deliveries," Mr Surman said.

Inlon is offering the T265 tractor with features including a level-lift quick-hitch loader and 4-in-1 bucket for \$22,990 (including GST) as a Christmas deal.

"The TYM T265 tractor is like a compact on steroids because it has a strong 865kg

dry weight and will push, lift and pull more than sub compact tractors," Mr Surman said.

"In fact, the powerful three-point linkage will lift 700kg which ensures compatibility with most farm implements.

"Two separate hydraulic systems give plenty of flow for implements and attachments. Independent rear and mid PTO allow operation of rotary hoes, slashers and mid-mount mowers.

"Both PTO and cruise control are easy to operate

via push buttons on the dash panel.

"The hydrostatic transmission has two ranges with two independent side-by-side HST pedals for forward and reverse, giving advanced ergonomic operation," Mr Surman said.

"With the brake pedals lo-

cated on the opposite side of the HST pedals, you can use your brakes for 'brake assist turning' when required for extra tight manoeuvring.

"Wide industrial tyres deliver extra stability and traction for slopes and front end loader work.

"The operator has a semi-

flat unobstructed platform with excellent entry clearance from either side.

"A foldable two-post ROPS frame offers both safety and versatility. Oil immersed disc braking will ensure safe and long life operation, and there is a three year warranty plan for peace of mind."

Bosch, BASF in joint venture

TWO German industrial giants, Bosch and BASF, have joined forces to globally market and sell smart farming solutions.

The new joint venture deal will be followed by the founding of a new company based in Cologne, Germany, early next year.

Bosch brings to the table significant capability in hardware and software as well as digital services.

BASF Digital Farming with its xarvio digital farming solutions provides an automated, real-time, field-specific agronomic decision-making engine for weed management.

The first two products to be launched will be a version of the Intelligent Planting Solution system with enhanced digital intelligence for seeding and fertiliser prescriptions and Smart Spraying which combines Bosch's camera sensor technology and software with xarvio's crop optimisation platform.

BOOROWA TRACTORS

Preet 45 Tractor

Forward / Reverse Shuttle, synchronise gearbox

\$23,000 Inc of GST

Front End Loader Optional at extra cost

Grain Cracker 3 phase

\$2,500 Inc of GST

PREET 65 TRACTOR

Preet 65 Hp with Front End Loader and 4 in 1 Bucket Forward / Reverse shuttle, synchronise gearbox

\$33,500 Inc of GST

PREET 90 TRACTOR

ARRIVING SOON \$43,000 Inc of GST

Disc Mower - 6 Disc

Recommended for 35 - 80 Hp

\$5,850 Inc of GST

Lovol Foton TD1104 Tractor with Front End Loader

110 Hp, 4 Cylinder diesel with air con cab synco mesh gearbox - high/low

\$52,000 Inc of GST

National Seeder

3 Box - Fertiliser, large seed and small seed Only used in Prepared Soil

17 Tyne \$8,500 | 19 Tyne \$9,500

Field Master Disc Plough

Trailing 8x8, Heavy Duty

\$2,800 Inc of GST

Aolite 935B Articulated Wheel Loader

118 Hp, Quanchai 4108 Turbo Engine Rated Lifting Capacity 2000 Kg, with AC / Heat Cab and quick hitch

Comes with 4 in 1 Bucket, GP Bucket, Pallet Forks and Hay Forks

\$38,500 Inclusive of GST
